

Professional Washroom Solutions You Can Rely On

phs is your trusted partner for high-quality hand towel dispensers and sustainable consumables. Our systems are designed to elevate hygiene, reduce waste and enhance the modern washroom experience for every user.

Hand Towel Dispenser Features

Touch-Free Options

Sensor-activated for a hygienic, hands-free experience

Manual Dispensers

Reliable solutions for low-traffic areas

Designed for any washroom aesthetic

Available in white, black, or stainless steel

Durable & Easy to Maintain

Built for high-traffic environments with minimal servicing.

Premium Hand Towel Consumables

Paper Material & Quality

- Virgin Pulp: New fibres, softer, stronger and more absorbent.
- Recycled: Made from post-consumer or post-industrial paper, environmentally preferable but usually less soft or durable.
- Bamboo: Fast-renewing, sustainable option with solid performance.

Ply Count

- 1-Ply: Single layer, lower cost, suited to high-traffic, cost-sensitive sites.
- 2-Ply+: Multiple layers for added thickness, strength and absorbency; feels more premium and typically reduces sheets per use.

Roll Towels

- Automatic/Sensor: Hands-free dispensing for higher hygiene and controlled consumption.
- Centrefeed: Pulled from the centre for quick, onehanded access, ideal for kitchens and workshops.
- Standard Roll: Manual or controlled-use dispensers in most commercial settings.

Folded Towels

- C-Fold: Loose stack; can lead to multiple sheets being taken.
- Multifold (Z/M-Fold): Interlocked design dispenses one at a time, reducing waste.
- Single/V-Fold: Simple, economical option for low-traffic areas.
- Compact/Ultra-Slim: Narrow formats for tight spaces or compact dispensers.

Tailored Solutions for Every Facility

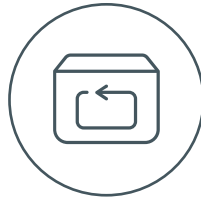

Whether you manage a café or bar, a commercial office or public events venue, no facility is too large or too small. We offer dispensers and consumable packages tailored to suit your needs.

Our solutions include:

Scheduled restocking and servicing

DIY - save \$\$ by ordering consumables only and restock yourself

Waste reduction strategies to assist you in meeting your ESG goals.

Recycled and biodegradable options available including tree-free options made from materials such as bamboo or sugarcane.
